

Pharmacy Benefits Summary

Effective:
January 1, 2017

Bryant University Base Plan

Your pharmacy benefits help you get the right medication at a reasonable price. Understanding the features of your plan can help you to get the most from your benefits when making medication decisions with your doctor.

OptumRx manages and processes your plan's pharmacy claims. We are also here to answer your pharmacy benefit questions and tell you about programs offered by your plan.

Your pharmacy benefits at a glance

Fill short-term medications, such as antibiotics, at a local retail pharmacy. Costs shown below are for network pharmacies. Your costs at non-participating pharmacies will be higher.

Get the medications you take regularly (also known as maintenance medications) through OptumRx home delivery.

Out of pocket: \$3,000 individual; \$6,000 family

	30-days at Retail	90-days at Home Delivery

Tier 2 (Preferred brand name drugs)	\$25	\$62.50
Tier 3 (Non-preferred brand name drugs)	\$50	\$125

Frequently asked questions

How do I find a participating retail pharmacy?

With OptumRx, you can fill prescriptions at thousands of pharmacies nationwide. There are two ways to quickly and easily find a retail pharmacy near you.

- Use the Locate a Pharmacy tool at [optumrx.com](https://www.optumrx.com).
- Call <TFN>.

What is the difference between brand name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand name medications, but they often cost less.

How do I request a prior authorization?

Certain medications may require special approval to be covered. This is called prior authorization. If your doctor prescribes one of these medications, you, your pharmacist or doctor can begin the review process by calling OptumRx customer service. A customer service advocate will work with your doctor's office to get the information for a prior authorization review.
